Jonathanito295@gmail.com

PROFILE

Backend developer with strong expertise in JavaScript and Node.js. Skilled in building scalable server-side applications using frameworks like Express.js and NestJS. Proficient in working with databases such as MongoDB, PostgreSQL, and MySQL, and developing RESTful APIs and GraphQL services. Adept at asynchronous programming, event-driven architecture, and ensuring security best practices. Experienced with Docker, containerization, and version control using Git and GitHub. Committed to writing clean, efficient, and well-tested backend code to deliver reliable and high-performance applications.

EDUCATION

UNIVERSITY OF LAGOS
2023-PRESENT: BSC INSURANCE

EXPERIENCE

FUEL ATTENDANT/MANAGER | ISAHIM FILLING STATION, OGUN STATE | 2018 – 2023

AI TRAINING PROGRAM (BACKEND DEVELOPER) | UPWORK (REMOTE) | 2025 – 2026

Completed backend development tasks as part of an AI training program, focusing on building and optimizing server-side applications.

- Worked with JavaScript, Node.js, and relevant frameworks to develop scalable and efficient backend solutions.
- Gained hands-on experience with API development, data handling, and asynchronous programming in real-world projects.

SKILLS

- JavaScript (core language)
- Node.js for server-side development
- Frameworks: Express.js, NestJS
- Databases: MongoDB, PostgreSQL, MySQL
- API development: RESTful APIs, GraphQL
- Version control: Git, GitHub (GitHub: Roodie77)
